

Don't just sell or share your content. Maximize it.

A PLMS platform for tomorrow's problems, not today's trends.

Performance

Capabilities

Organizational gap analysis Custom capability frameworks Al-driven capability & cohort mapping Self & supervisor assessments Succession planning Historical assessment dashboard Third-party frameworks

Momentum

Builder workflow access Integrated course workflows Cyclical performance reviews Third-party training applications Onboarding & probation Mentoring PIPs

External Learning

Multiple learner portals Automated tax management Live learning Payments Self-registration Remote content sharing Cross-tenancy content sharing No log-in catalogue

Learning

Internal Learning

White labelled UI Learner portals Workflows Live learnings User & admin interfaces Cohort management

External learning Share or sell your content

External

Multiple learner portals

Customize & personalize multiple tenancies for brand consistency, security & access control, content relevance, reporting & analytics, and leading user experience

Automated tax management

Acorn's native integration with Avalara AvaCloud makes tax determination faster, easier, and more accurate

Live learning

Deliver real-time, interactive, and instructor-led learning experiences.

Self-registration

For external learners, it is key to have robust self-registration like Acorn's so users can autonomously sign up or enroll themselves.

Remote content sharing

Upload SCORM content into Remote Content Sharing, create distribution channels for third parties, and once downloaded, get centralized reporting.

Cross-tenancy content sharing

Share training content across different tenancies within Acorn PLMS.

Payments

Add a payment to a Course or Session before the user enrolls or registers. External checkouts enable new users to purchase content without an account.

Catalogue

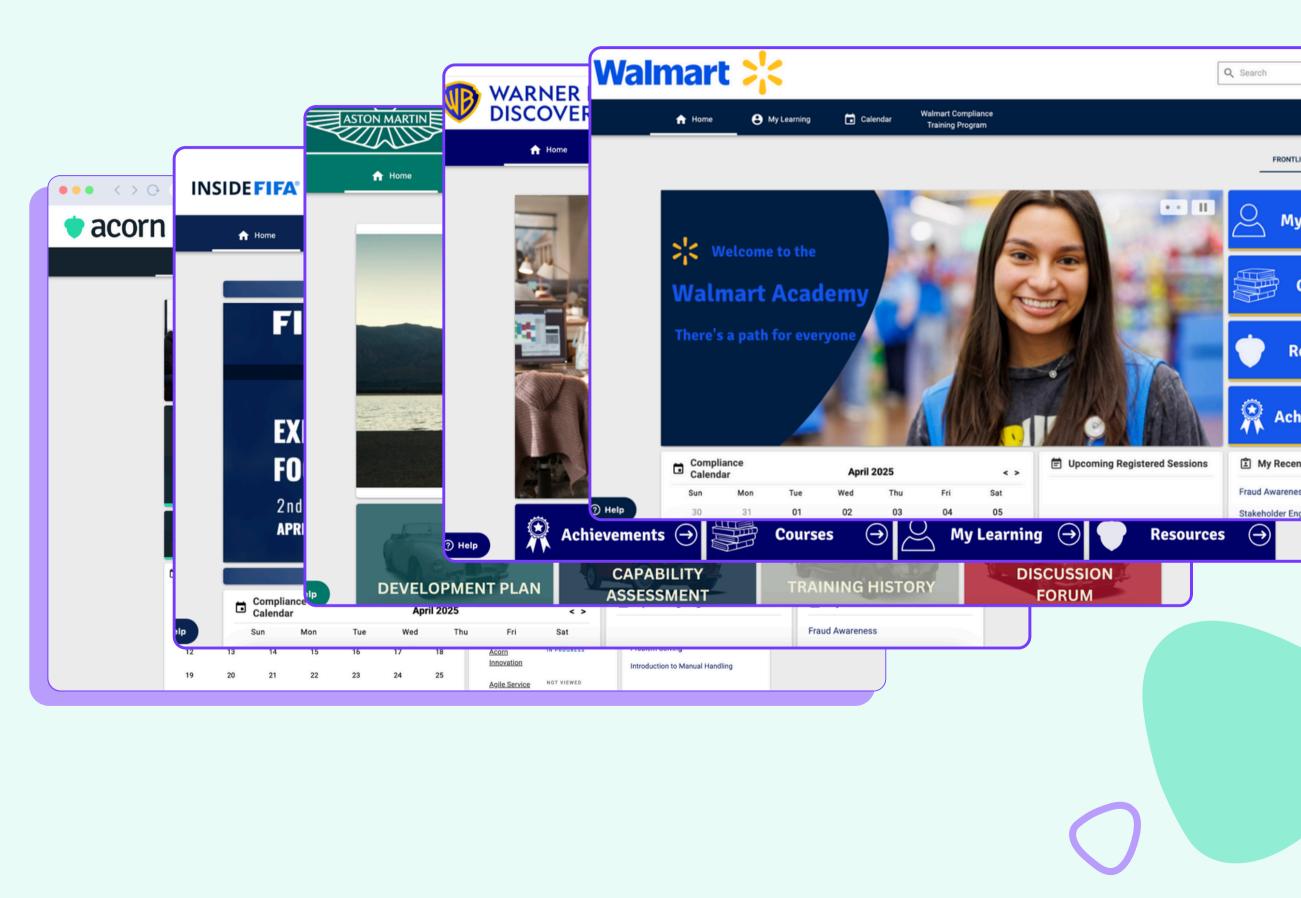

Configure by individual tenancy and enable new users to browse learning content without having to log in or create an account.

Learner portals

Portals for every cohort

Show every cohort only what they need to know.

- Customize multiple tenancies & cohorts to show the most relevant content to each learner
- Deliver real-time interactive & instructor-led learning experiences
- Enable users to self-register & enroll

Tax management

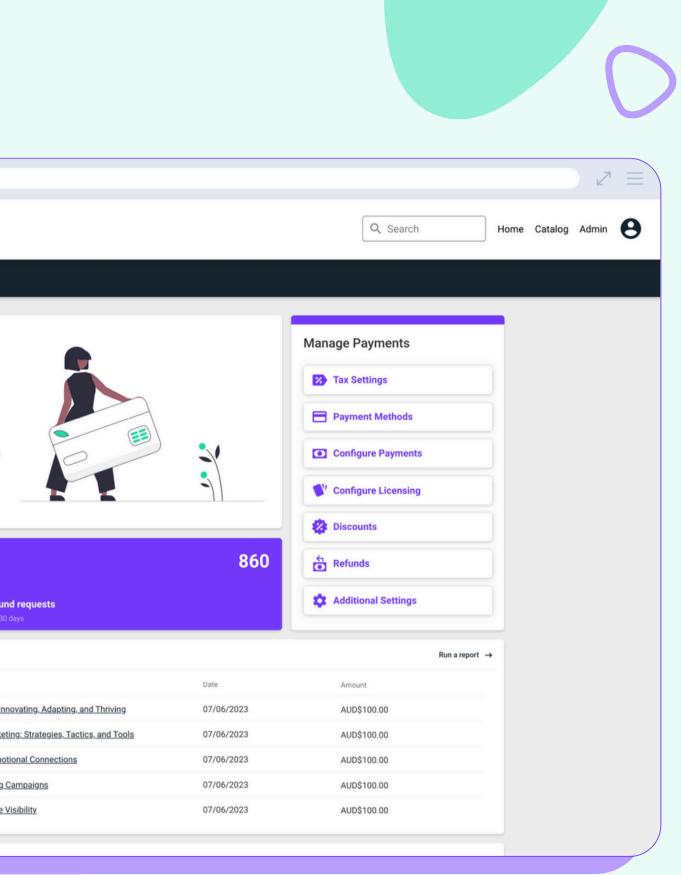

Native payments & tax

More ways to pay.

- Add payments to courses before learners enroll
- Store & manage transaction history & receipts in Acorn
- Stay compliant with local tax regulations with Avalara AvaCloud

self-registration

Faster access to content

Put content in front of learners without them logging in.

- Customize multiple catalogues for individual tenancies & learner portals
- Secure usage with Single Sign On and user-specific logins
- Create demand for content before learners enroll
- Integrate Acorn's catalogue into other websites without consuming any licenses

Content sharing

Share SCORM content, retain IP

Keep master versions while sharing content in & outside Acorn.

- Share content across multiple tenancies, learning portals & other LMS platforms
- Report on third-party content completions in Acorn
- Group content into distribution channels to see which have the best adoption

Multi-language

Choose your own language

Offer equal learning opportunities to diverse audiences.

- Change languages at the tenancy level or enable learners to choose their own
- Ensure cost-efficiency for multilocation training
- Comply with local regulations and standards

Languages supported by Acorn

17 languages to help you create more personalized learning experiences.

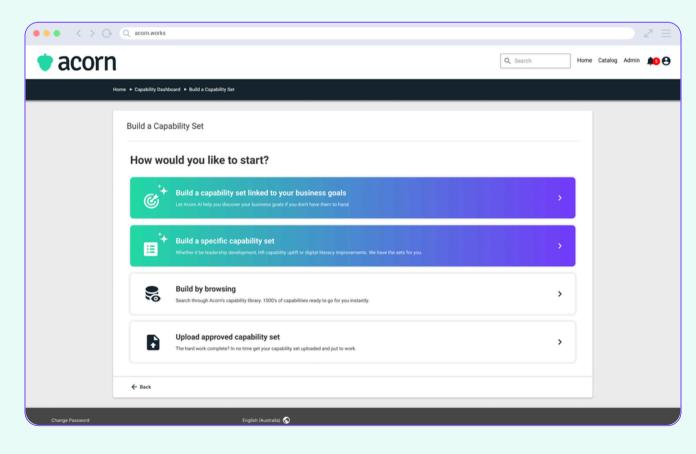

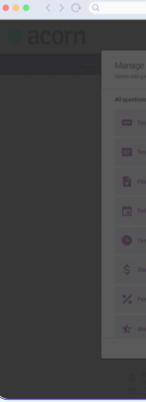

Want to level up your LMS? Turn your LMS into a PLMS with our performance suite.

Capabilities

Map your learning content to the capabilities that matter to your business, assess learners on the competencies that are important in their roles, and develop performance that impacts the bottom line.

Streamline, automate, and centralize all your paperbased workflows, no code required. Think goal setting, performance reviews, onboarding training requests, 360-degree feedback, and self-service applications.
